

Job Description

Position Title: Planner-Project Manager

Accountable To: Project Planning Manager

FLSA Status: Exempt

Primary Objective of the Position:

Performs difficult advanced technical work in a project management capacity, developing, designing and monitoring the construction of District capital projects, planning for the management of water within the District, identifying emerging issues and opportunities, developing innovative solutions to address them, and related work as apparent or assigned. Manages internal staff teams through a matrix management system. Work is performed under the general direction of the Project Planning Manager.

Qualification Requirements:

To perform this job successfully, an individual must be able to perform each essential function satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Essential Job Functions:

Assemble internal and external teams and manage all aspects of project development through feasibility, design, land acquisition and construction. Manage all necessary consultants and contractors; manage project scope, schedule and budget; the negotiation, development and execution of cooperative agreements and contracts; and lead construction management and oversight.

Direct and manage internal staff teams through a matrix management system to ensure clear expectations and execution of project support across research and monitoring, permitting, education and communications programs.

Prepare and present recommendations, requests for Board action (RBAs) and resolutions to the Board of Managers for planning activities, District policies, Capital Improvement Program (CIP), feasibility studies, project ordering, preliminary and final design of projects, departmental work plans, property and easement acquisitions, and cooperative agreements.

Identify, analyze and make recommendations to the Board of Managers for land preservation and acquisition. Manages valuation, negotiation, development and execution of real estate contracts and associated financing. Coordinate acquisitions with all appropriate agencies and partners.

Develop project and program work plans (including goals, budget, schedule), Scope of Work documents, and Requests for Proposals to procure design and engineering services; prepares annual reports to the Board and state agencies.

Develop and manage program and project budgets and review, approve, track, and code invoices; research outside funding opportunities, write grant applications, and perform various administrative functions associated with grant programs.

Maintain ongoing and positive working relationships with the cities and townships; state and local agencies; congressional, state, regional, and local governments, and the public; engages cities, citizens, and other stakeholders in the development of District plans, programs, and policies.

Job Description

Perform research, compile facts, and work with stakeholder groups, as necessary; monitor the implementation and assess outcomes of plans, programs, and policies; prepare presentations and facilitate meetings for City staff and Council, industry professionals, and community members.

Education and Experience:

Bachelor's degree with coursework in natural resources, environmental science, planning, management, or related field and 2-5 years of experience in natural resource management or planning, or equivalent combination of education and experience.

Knowledge, Skills and Abilities:

Thorough knowledge of planning theory and principles; thorough knowledge of state rules and statutes governing land use and water resource management and protection; thorough knowledge of engineering, construction, mapping and easement methodology related to water resources; general knowledge of urban land use planning, economic and community development, transportation infrastructure, and municipal processes; thorough skill processing and analyzing information related to GIS mapping, budgets, contracts, work plans, policies, grants and projects; thorough skill operating standard office equipment, computer equipment including related hardware and software and job-specific devices; ability to communicate effectively in both oral and written forms; ability to read and interpret permits, site plans and designs and to ensure compliance with appropriate ordinances and codes; ability to be an objective listener and respect the opinion of others; ability to participate in educational opportunities to stay abreast of changing laws and technologies related to program area; ability to develop and maintain a working knowledge of the District's operations and policies; ability to deal with the general public in a tactful and courteous manner; ability to make arithmetic computations, create rating curves and formulas and perform statistical analysis; ability to maintain a flexible attitude toward job responsibilities and procedural changes, helping others as needed; ability to develop and maintain positive, cooperative, working relationships with all District employees/consultants, local and agency staff, and the general public.

Physical Requirements:

This work requires the occasional exertion of up to 25 pounds of force; work regularly requires speaking or hearing, using hands to finger, handle or feel and repetitive motions, frequently requires sitting and occasionally requires standing, walking, climbing or balancing, stooping, kneeling, crouching or crawling, reaching with hands and arms, pushing or pulling and lifting; work has standard vision requirements; vocal communication is required for expressing or exchanging ideas by means of the spoken word; hearing is required to perceive information at normal spoken word levels; work requires preparing and analyzing written or computer data, using of measuring devices, operating machines, operating motor vehicles or equipment and observing general surroundings and activities; work occasionally requires working near moving mechanical parts and exposure to outdoor weather conditions; work is generally in a moderately noisy location (e.g. business office, light traffic).

Special Requirements:

Valid driver's license.
