

WELCOME TO

GIDEON GLEN

Gideon Glen is a 5.8-acre parcel that has been restored as a haven for people, plants and wildlife—all while cleaning up the waters of Lake Minnetonka.

Follow this short path and learn about man-made and natural processes that clean stormwater runoff as it makes its way to Lake Minnetonka. At path's end, you will see a restored black-ash swamp and a remnant of the "Big Woods."
