| Past Board action:  | <u>Res # 19-012</u><br><u>Res # 23-010</u>   | Adoption of MCWD Compensation Policy<br>Execute Contract for 2023 Compensation Study |

### Background:

Between 2017 and 2018 the Minnehaha Creek Watershed District (MCWD) completed a significant strategic plan and reorganization to align the District's operations around a refocused vision, mission and strategy. As part of the reorganization, the District conducted a classification and compensation study which was accepted and implemented in December 2018.

To complement and follow this work, on January 10, 2019, the Board of Managers adopted a <u>compensation policy</u> to clearly articulate the MCWD's philosophy regarding employee compensation, and to outline how the organization would administer and maintain its compensation plan.

This compensation policy recognized that in striving for excellence, MCWD's most important assets are its people. Therefore, the policy was designed to achieve the following goals:

- Support the recruitment and retention of talent necessary to achieve MCWD's mission
- Provide compensation that is competitive within the regional market
- Reflect MCWD's unique strategic priorities
- Provide internal equity through consistent evaluation of positions and pay
- Reward employees based on mission driven performance
- Maintain a pay plan that is clear and easy to communicate
- Comply with all laws and regulations

The policy delineates MCWD's compensation philosophy, placement for new hires, considerations for performancebased compensation, salary range penetration, and processes for reclassification of positions, and the annual maintenance of the MCWD pay plan through the annual budgeting process.

In addition, the policy recommends that a formal classification and compensation study be conducted every five years. 2023 marked the fifth year in administering the current pay plan, and therefore, consistent with policy, and pursuant to resolution 23-010, the Board of Managers authorized the execution of a contract with Baker Tilly to complete a study to revalidate and baseline the salary ranges and grade assignments for MCWD staff positions.

## 2023 MCWD Classification and Compensation Study:

Beginning in the first quarter of 2023, Baker Tilly worked with MCWD staff and the Board of Managers through the following scope and project milestones to complete the 2023 MCWD Compensation Study:

- 1. Project Initiation and Data Collection
  - a. Meet with MCWD project team and gather all available data
    - i. Organizational charts, position descriptions, pay plan, etc.
- 2. Position Title and Description Review
  - a. Screen existing position titles and job descriptions to validate and ensure consistency
- 3. Position Evaluation and Classification Review
  - a. Use SAFE to review position evaluations and classification, making any necessary adjustments
- 4. Market Assessment of Compensation and Benefits
  - a. Complete a market survey of peer public and private organizations, and aggregate indices
- 5. Compensation Plan Development and Recommendations
  - a. Analyze options for an updated pay plan and formulate a recommended implementation plan
- 6. Final Report and Presentation
  - a. Synthesize methods, analysis, findings, recommendations and present to the MCWD Board

## Preliminary findings and recommendations were discussed with the MCWD Board of Managers during:

- 1. June 8, 2023 Operations and Programs Committee Meeting
- 2. June 22, 2023 Board Meeting

## Findings:

Following a survey of eight peer organizations, use of aggregated data from a regional watershed compensation study, and published sources like the Bureau of Labor Statistics, Baker Tilly obtained market values for 19 of MCWD's 22 positions.

A market results report showing matches per position, average minimum, average midpoint, and average maximum, as well as range spread can be found within the Final Draft Report as Attachment 1. MCWD's 2023 range midpoints were found to be 8% behind market on average. This information is summarized in Attachment 2.

Attachment 3 within the Final Draft Report summarizes a comparison of MCWD benefits with market respondents. Three key findings were summarized for the Board of Managers during preliminary discussion of findings:

- 1. MCWD remains cost competitive on a per employee basis for health benefits
- 2. MCWD is aligned with the market on a percent coverage basis for employee health benefits
- 3. The market provides a lower average percent cost coverage for family health benefits

### **Recommendations:**

Based on the findings of the 2023 Compensation Study led by Baker Tilly, and the discussions to date on June 8 and June 22, it is recommended that the Board of Managers:

- Accept the 2023 Compensation Study Findings
- Adopt the recommended 2024 Pay Plan
- Authorize the District Administrator to implement a 2.9% adjustment to 2023 wages for filled positions, retroactive to July 16, 2023.

## RESOLUTION

| Resolution: | 23-041   |
|-------------|--|
| Title:      | Acceptance of 2023 Compensation Study Findings; Adoption of 2024 Pay Plan; and Authorization of 2023 Mid-Year Wage Adjustments   |
| WHEREAS,    | pursuant to resolution 19-012, the Minnehaha Creek Watershed Board of Managers has adopted a compensation policy, that acknowledges the organization's people as its most important assets and outlines its philosophy and processes related to employee compensation;   |
| WHEREAS,    | <ul> <li>among several goals, this compensation policy is designed to support the recruitment and retention of talent necessary to achieve MCWD's mission and strategic priorities by: <ul> <li>Providing for compensation that is competitive within the regional market</li> <li>Ensuring internal equity through the consistent evaluation of positions and pay</li> <li>Reward employees based on mission driven performance</li> <li>Maintain a pay plan that is clear and easy to communicate</li> <li>Comply with all laws and regulations</li> </ul> </li> </ul> |
| WHEREAS,    | MCWD's compensation policy recommends that a study of position classification and market compensation be conducted every five years, and 2023 represents the fifth year since the last study was completed;  |
| WHEREAS,    | pursuant to Resolution 23-010, the MCWD Board of Managers authorized a contract with Baker Tilly to conduct a 2023 market study of compensation;   |
| WHEREAS,    | results and recommendations from Baker Tilly's 2023 Compensation Study were reviewed at the June 8, 2023 Operations and Programs Committee, and the June 22, 2023 Board Meeting;   |
| WHEREAS,    | the MCWD Board of Managers finds the 2023 Compensation Study to provide a clear representation of the region's market conditions for employee compensation, and the accompanying recommendations to be consistent with the Board's policy of maintaining competitiveness in the region's marketplace for talent.   |

NOW, THEREFORE, BE IT RESOLVED that the Minnehaha Creek Watershed District Board of Managers hereby accepts the 2023 Compensation Study Findings; adopts the recommended 2024 Pay Plan; and authorizes the District Administrator to implement a 2.9% adjustment to 2023 wages for filled positions retroactive to July 16, 2023

## MINNEHAHA CREEK WATERSHED DISTRICT

**Compensation Study** 

August, 2023 Final Report

August 7, 2023

James Wisker District Administrator 15320 Minnetonka Blvd Minnetonka, MN 55345

Dear Administrator Wisker:

Baker Tilly US, LLP ("Baker Tilly") is pleased to provide the Minnehaha Creek Watershed District ("MCWD"), with results from the completed Compensation Study. This report documents the approach, findings, and recommendations resulting from the study.

We would like to thank you, as well as other MCWD staff that aided us in bringing this study to its successful completion. We understand that your employees are your greatest asset and without a competitive pay program MCWD may struggle to attract qualified candidates and retain/reward experienced employees. We have created a compensation system that, if implemented, will ensure that MCWD positions are externally competitive and internally equitable.

It has been a pleasure working with the Minnehaha Creek Watershed District and we hope to provide you with professional assistance in the future. Further, we would be happy to answer any questions or points of clarity to the findings and recommendations of this study.

Sincerely,

Jada Kent

Jada Kent, CCP Senior Manager

Laura Linehan

Laura Linehan, CCA, PHR, CLRP Senior Consultant

## **Project Methodology**

Baker tilly approached the Compensation Study for Minnehaha Creek Watershed District, by completing each of the following phases or milestones:

## **Phase 1: Data Collection**

- Baker Tilly initiated the study by conducting a planning meeting with the MCWD project team to discuss the current compensation system, goals for conducting the study, and to walk through each phase of the process.
- Next, Baker Tilly collected documentation from MCWD, including job descriptions, organizational charts, pay structure, personnel policies, and any other documentation describing how work is performed or compensated.

## **Phase 2: Position Review**

- Baker Tilly reviewed existing SAFE job evaluation scores with MCWD's project team to verify internal equity.
- Titles were adjusted based on organizational requests.

## Phase 3: Market Assessment

- Baker Tilly assisted MCWD in identifying peer organizations to collect base pay salaries data for from. The results were analyzed and reviewed with the project team to determine MCWD's desired position within the market.
- Peer information on pay plans, pay policies, paid time off programs, health insurance, and retirement was also collected during the market study. A comparison to MCWD's benefit offerings was prepared. These results can be found in *Attachment 3.*

## **Phase 4: Pay Plan Development**

 Baker Tilly updated the existing pay plan and calculated implementation scenarios to provide MCWD with an option to update their existing compensation plan. The scenarios were reviewed with the MCWD project team, and the Board of Managers.

## Phase 5: Project Completion

 Baker Tilly prepared this final report documenting the methodology used throughout the compensation study, findings and results of the study, as well as our recommendations based on those results.

## **Position Review**

## **Title Changes**

Title changes are most often for the purpose of establishing consistent formatting and nomenclature across the organizations. However, some title adjustments are for the purpose of clarifying the nature and level of work performed. A list of titles that were adjusted can be found in *Table 1.* 

## **Market Review**

## **Public Peer Organizations**

Understanding your labor market is key to selecting relevant peer organizations for a market study. Factors to consider include industry, organization size (population served, number of employees, and/or revenue budget), geographic location or proximity to a metropolitan area, competition for talent, and availability of data.

Baker Tilly partnered with MCWD to identify 8 public peer organizations that represent MCWD's competitive and comparative labor market. Baker Tilly contacted each organization to request base pay information for benchmark positions. Data was collected and compiled from all 8 of the organizations indicated in *Table 2.* 

## MWMO/CRWD Salary Survey

Aggregated data from the MWMO/CRWD salary survey was also incorporated into the market assessment. The data results used included base pay data from the following organizations:

- Capitol Region Watershed District (CRWD)
- Mississippi Watershed Management Organization (MWMO)
- Nine Mile Creek Watershed District (NMCWD)
- Prior Lake Spring Lake Watershed District (PLSLWD)

## **Table 1: Title Changes**

| Current Title                    | Proposed Title                      |
|----------------------------------|-------------------------------------|
| Project Planning Program Manager | Project Director                    |
| Policy Planning Program Manager  | Policy Director                     |
| N/A (Career Progression)         | Sr. Project Maintenance Coordinator |
| Policy and Grants Coordinator    | Policy Planning Coordinator         |

 Table 2: Peer Organizations

| Peer Organizations     |                            |  |  |  |  |  |  |  |  |
|------------------------|----------------------------|--|--|--|--|--|--|--|--|
| City of Bloomington    | Hennepin County            |  |  |  |  |  |  |  |  |
| City of Edina          | Carver County              |  |  |  |  |  |  |  |  |
| City of Golden Valley  | Scott County               |  |  |  |  |  |  |  |  |
| City of St. Louis Park | Three Rivers Park District |  |  |  |  |  |  |  |  |

- Rice Creek Watershed District (RCWD)
- Riley Purgatory Bluff Creek Watershed District (RPBCWD)
- South Washington Watershed District (SWWD)
- Vadnais Lake Area Water Management Organization (VLAWMO)

## **Published Sources**

Published salary data was used as a private sector benchmark in this assessment with data from the following sources included in the study:

- Bureau of Labor Statistics (BLS). The Occupational Employment Statistics (OES) survey is a semiannual survey measuring wage rates by industry and is displayed nationally, by state, and/or metropolitan area. BLS data used in this survey was pulled at the 10th and 90th percentile to represent the minimum and maximum thresholds of a salary range.
- Comp Analyst is a salary data resource from Salary.com that is comprised of HR-reported pay data comprised of 800 million market data points from more than 25,000 organizations resulting in data across 15,000 unique job title, 225 industry breakouts, 27,000+ compensable factors, in 42,000+ geographies.
- Economic Research Institute (ERI) is a salary data resource reporting market data for more than 11,000 jobs in more than 9,000 different locations across more than 1,100 industry sectors. ERI data is updated quarterly. ERI data used in this survey was pulled at the 10th and 90th percentile to represent the minimum and maximum thresholds of a salary range.

## Data Adjustments

Base pay information was adjusted, as necessary, to account for differences in workweek. For example, reported salaries for a 37.5-hour work week were adjusted to reflect that wage for a 40-hour work week to ensure consistent full-time wages were utilized.

## **Quality Control**

Our methodology is based on best practices outlined by World at Work and the Society for Human Resources Management. We utilize the following standards to safeguard the quality of our process results:

- A summary of each benchmark position was included in the market survey along with minimum education and experience requirements to assist peer organizations in matching to positions and not titles.
- A 75% overlap in duties and responsibilities constitutes a "good" match. Baker Tilly reviewed peer matches and removed or replaced data that appeared to be an inappropriate match. Some organizations returned base pay information for Baker Tilly to match on their behalf.
- Because market results are established by a calculation (such as an average of all midpoints), a greater sample size yields greater confidence in those results. Therefore, Baker Tilly required <u>at least three matches</u> per benchmark position to calculate a market value. Positions that had insufficient data (less than three matches) are identified as such in the market results.

salarycom

## Market Results

Of MCWD's 22 position classifications, 20 were included in the market survey as a benchmark positions (90.9%). Baker Tilly requested base pay ranges (minimum to maximum) for each benchmark position and calculated for the midpoint of each collected range.

- Of the 20 benchmark positions, 1 had insufficient data (less than 3 matches) and a market value was not calculated.
- All positions were evaluated for internal value. Therefore, non-benchmark positions and/or positions with insufficient matches can still be slotted into the pay structure equitably.
- Overall, the study yielded market values for 19 of MCWD's 22 positions (86.3%).

A Market Results report showing matches per position, average minimum, average midpoint, and average maximum, as well as range spread can be found in *Attachment 1.* 2023 midpoints were found to be 8% behind market on average across all positions.

The market average midpoint is observed to reflect "the market" value for a given position. A calculated comparison of MCWD's existing midpoints against the market average midpoint for each benchmark position can be found in *Attachment 2*. This report also includes a 5% above and 5% below "market" comparison for consideration which aided conversations about MCWD's desired position within its market.

## **Pay Plan Development**

Upon reviewing the market survey results with the MCWD, Baker Tilly led discussions with the MCWD project team with regards to the number of pay plans, type of pay plans, and design of pay plans.

## **Current Pay Plan**

MCWD currently utilizes a single open range pay structure for all 22 position classifications. It includes 17 pay grades, numbered 5 through 21 and has a consistent 40% range spread and 7% midpoint differential for all grades. The current pay plan can be found in **Table 3** with a distribution of the pay structure displayed in **Figure 1**.

## Proposed Pay Plan

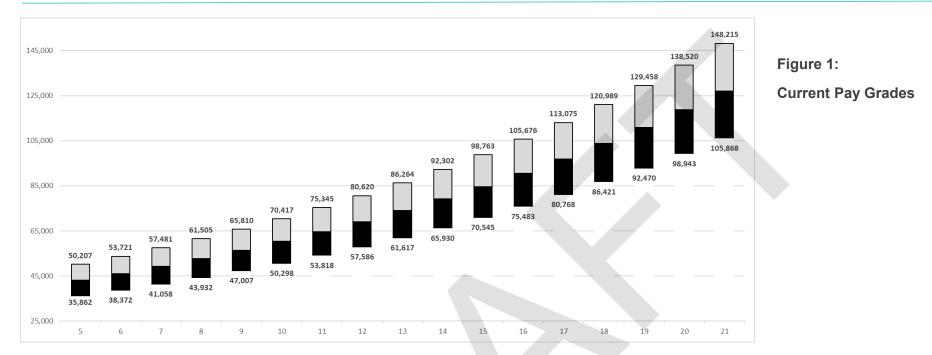

Baker Tilly recommended MCWD continue utilizing a single pay structure of all 22 position classifications. Further, Baker Tilly recommended increasing range spreads to 45% and increasing midpoint differentials to 10% for grades 17 through 21. This adjustment would better accommodate positions assigned to those grades. The proposed pay plan can be found in *Table 4* with a graph of pay grades in *Figure 2*. Per the Minnesota Local Government Pay Equity Act, positions were assigned to the proposed pay plan based on total SAFE scores. Proposed grade assignments can be found in *Table 5*.

| Grade | Minimum   | Midpoint  | Maximum   | Range<br>Spread | Midpoint<br>Differential |
|-------|-----------|-----------|-----------|-----------------|--------------------------|
| 5     | \$35,862  | \$43,034  | \$50,207  | 40%             | 7.00%                    |

## **Regression Analysis**

In statistical modeling, a regression analysis is used to measure the relationships between data sets and even predict one variable based on another. Here, Baker Tilly used a regression analysis to compare the proposed pay plan against market average midpoints. The coefficient of determination for MCWD's data is 88.90%. Due to the high correlation in internal and external values, the MCWD will be able to maintain the proposed classification and compensation system using our SAFE job evaluation process as a means for reclassifying positions that have changed over time, adding new positions, consolidating positions, etc. into the future.

In **Figure 3**, each dot represents a benchmark position where the total job evaluation score and market average midpoint intersects. The black arrowed line represents the line of best fit through all benchmark positions. Further, this chart depicts the proposed pay plan at the minimum, midpoint, and maximum as it lays across the natural distribution of jobs.

## Figure 3: Regression Distribution

## **Implementation**

Baker Tilly prepared several implementation cost scenarios for MCWD to consider in its adoption of the new pay plan and grade assignments. Calculations represent base pay only.

- Option 1: Employees move to the minimum of their new pay range if their current salary is below that amount. If the current salary is already above the new minimum, employees would retain their existing salary.

|                         |            | Option 1 - Move to Minimum, if Below |                 |            |            |  |  |  |  |  |
|-------------------------|------------|--------------------------------------|-----------------|------------|------------|--|--|--|--|--|
|                         | # of Staff | Current Salary                       | Proposed Salary | Difference | % Increase |  |  |  |  |  |
| Totals                  | 29         | \$2,324,518.00                       | \$2,329,304.00  | \$4,786.00 | 0.2%       |  |  |  |  |  |
| Employees Below Minimum | 2          | \$116,148.00                         | \$120,934.00    | \$4,786.00 | 4.1%       |  |  |  |  |  |
| Employees Within Range  | 26         | \$2,110,349.00                       | \$2,110,349.00  | \$0.00     | 0.0%       |  |  |  |  |  |
| Employees Above Maximum | 1          | \$98,021.00                          | \$98,021.00     | \$ -       | 0.0%       |  |  |  |  |  |

 Option 2: Employees receive the greater of moving to minimum or a 2% adjustment to their salary. If movement to the minimum results in less than a 2% adjustment, employees would instead receive a full 2% adjustment. Therefore, no employee receives less than a 2% adjustment.

|                         |            | Option 2 - Greater of 'Move to Minimum' or 2% adjustment |     |               |      |           |            |  |  |  |  |
|-------------------------|------------|--|-----|---------------|------|-----------|------------|--|--|--|--|
|                         | # of Staff | Current Salary   | Pro | oposed Salary | Diff | erence    | % Increase |  |  |  |  |
| Totals                  | 29         | \$ 2,324,518.00  | \$  | 2,358,192.00  | \$   | 33,674.00 | 1.4%       |  |  |  |  |
| Employees Below Minimum | 2          | \$116,148.00   | \$  | 120,934.00    | \$   | 4,786.00  | 4.1%       |  |  |  |  |
| Employees Within Range  | 26         | \$2,110,349.00   | \$  | 2,139,237.00  | \$   | 28,888.00 | 1.4%       |  |  |  |  |
| Employees Above Maximum | 1          | \$98,021.00  | \$  | 98,021.00     | \$   | -         | 0.0%       |  |  |  |  |

 Option 3: Employees move to the minimum then receive a 3.5% adjustment for each year in their position. If the current salary is greater than this amount, employees would retain their existing salary. This scenario is meant to help with compression.

|                         |     | Option 3 - Minimum + 3.5% x YIP or Current Salary |    |                |     |              |      |       |           |            |  |
|-------------------------|-----|---|----|----------------|-----|--------------|------|-------|-----------|------------|--|
|                         | # o | f Staff   | Cu | rrent Salary   | Pro | oposed Sala  | ry I | Diffe | rence     | % Increase |  |
| Totals                  |     | 29  | \$ | 2,324,518.00   | \$  | 2,360,166.90 | 0    | \$    | 35,648.90 | 1.5%       |  |
| Employees Below Minimum |     | 2   |    | \$116,148.00   | \$  | 125,166.69   | 9    | \$    | 9,018.69  | 7.8%       |  |

## **Recommendations**

MCWD is a service-oriented organization. We understand that your employees are your greatest asset, and without a competitive pay program MCWD may struggle to attract qualified candidates and retain/reward experienced employees that are essential in delivering those services.

This report contains significant amounts of information, which has been gathered from a variety of sources, objectively analyzed, and structured in a way that will provide a fair and defensible system for the MCWD to compensate its employees. It is our independent judgment that has resulted in the following recommendations.

## We recommend the Minnehaha Creek Watershed District Board of Managers:

- Approve the proposed pay plan and position grade assignments.
- Approve an implementation scenario that addresses the District's compensation philosophy, business goals, and that is fiscally sustainable.
- Direct the District Administrator to continue efforts to maintain the classification and compensation system, by:
  - Routinely reviewing positions, job descriptions, and market conditions.
  - Adjusting the pay structure and salaries, annually, to keep pace with the market.
  - Adopting annual merit based increases to reward employees and ensure advancement through assigned pay ranges.

## Pay Plan and Benefits Practices

## **Executive Summary**

Peer organizations identified for the market study were also asked to provide information related to their pay plan, paid time off, health benefits, and retirement benefits. Baker Tilly collected data from eight peer organizations. Three peer organizations completed the benefits portion of the market survey, and the other peer organizations provided 2023 benefits guidebooks and active personnel manuals. The peer data provided was matched by Baker Tilly.

## Pay Plan Design

- Seven (7) peers have adopted a formal pay plan. Two (2) peers have multiple pay plans, and five (5) peers utilize a single pay plan.
- Two (2) peers use an Open Grade pay plan system with minimums and maximums, three (3) peers use Grade and Step pay plans, one (1) peer uses a pay for performance plan and one (1) peer uses a merit-based pay plan.

#### Time Off

- Eight (8) peers' average number of annual paid holidays is 11.5 days, which is higher than Minnehaha Creek Watershed District's twelve holidays these numbers are *not* inclusive of any floating holiday amounts.
- Five (5) peers provide 1 annual floating holiday, like *Minnehaha Creek Watershed District*.
- Eight (8) responding peers utilize a paid time off (PTO) model, while two (2) responding peers use a vacation sick time off model like *Minnehaha Creek Watershed District*.
- When combining total leave time (vacation and sick for all peers), *Minnehaha Creek Watershed District* is overall comparable to market average.
- Seven (7) responding peers allow an average maximum of 59.13 accrued vacation, sick or PTO days, which is lower than *Minnehaha Creek Watershed Districts* annual allowed maximum of 30 accrued vacation and 90 accrued sick time off days.

#### **Health Benefits**

- Four (4) peers responded to having preferred provider organization health plans (PPO) and five (5) peers responded to having high deductible health plans (HDHP), like MCWD. There were insufficient responses for health maintenance organization plans (HMO).
- *Minnehaha Creek Watershed District's* HDHP provides higher percent employer contributions toward health benefit premiums than market average employer contributions while MCWD actual costs per employee are lower than market average.
- Like *Minnehaha Creek Watershed District*, six (6) peers offer life insurance policies. Said policies range from 1x employee salaries to fixed amounts.

#### **Other Benefits**

- Four (4) responding peers offer flexible work schedules with varying policies.
- Five (5) peers offer full and/or partial remote work schedules based on specific positions.
- None of the responding peers allow an organizational sabbatical.

Participating organizations include:

- City of Bloomington, MN\*
- City of Edina, MN\*
- City of Golden Valley, MN\*
- City of St. Louis Park, MN\*
- Carver County, MNScott County, MN

• Hennepin County, MN\*

• Three Rivers Park District, MN

\* Indicates organization data was matched by Baker Tilly

| # Steps per Grade | 3                                    | 6                        | 7                              | 6.33                              |
| % Between Steps   | 3                                    | 3%                       | 5%                             | 4.3%                              |

How pay increases are administered

| <u>Number of</u><br>Responses | <u>Responses</u>  |  |
|-------------------------------|---|--|
| 4                             | Merit or performance based (2)<br>Annual wage or step increase (automatic) (1)<br>Budget process or financial ability (1) |  |
| MCWD ad                       | dministers pay increases through merit or performance ratings   |  |

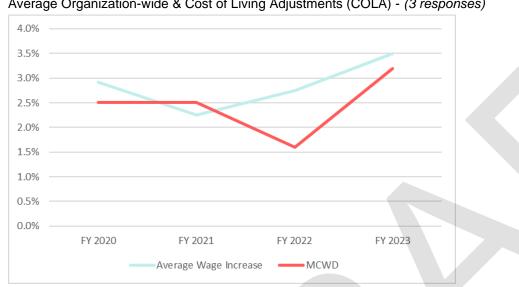

For open plans, six (6) peers have an average of 23 grades, similar to *Minnehaha Creek Watershed District*'s 21 grades.

For grade and step plans, on average, peers have 6 steps in their pay plans with an average of 4.3% between steps.

## Pay increases

Reporting peers administer pay increases through a variety of measures with two (2) peers responding increases are administered through merit or performance based measures, like *Minnehaha Creek Watershed District*.

## Average Organization-wide & Cost of Living Adjustments (COLA) - (3 responses)

#### How organizations adjust pay structure

| <u>Number of</u><br><u>Responses</u>   | <u>Responses</u>   |  |
|--|--|--|
| 3  | Budget process or financial ability (1)<br>Annual internal review / adjustment (1)<br>Other (please explain) (1) |  |
| MCWD adjusts their pay structure through annual internal review /<br>adjustment and a compensation study |  |  |

Frequency organizations adjust their pay structure

| <u>Number of</u><br>Responses             | <u>Responses</u>                 |  |
|---|----------------------------------|--|
| 3   | Annually (2)<br>Sporadically (1) |  |
| MCWD adjusts their pay structure annually |                                  |  |

Average annual wage adjustment

Like *Minnehaha Creek* Watershed District, three (3) responding peers provide a COLA and/or organization-wide increase each fiscal year (FY). Minnehaha Creek Watershed District's annual wage adjustments have been below market average for FYs 2020, 2022, and 2023. MCWD's wage adjustment for 2021 was 0.25% higher than market average.

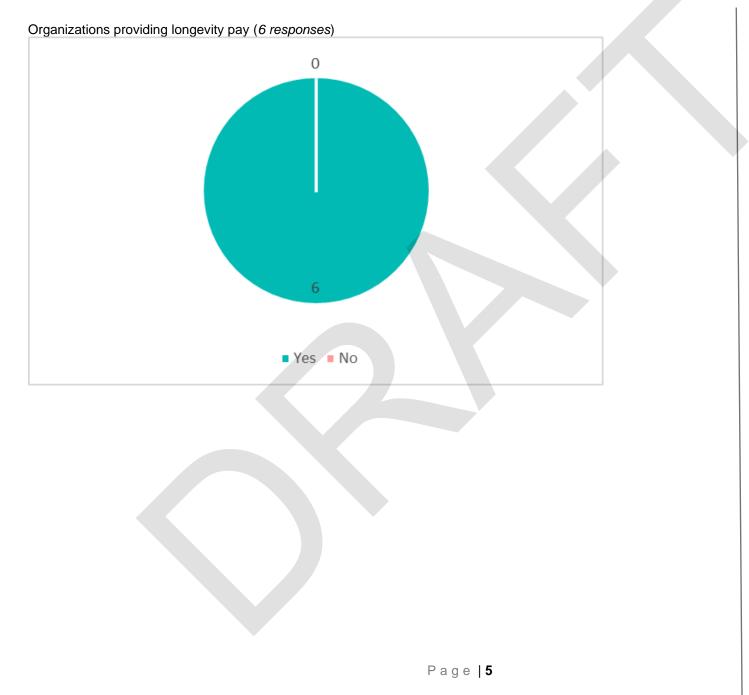

## Adjusting pay structures

One (1) responding peer adjusts their pay structures using more than one strategy, like Minnehaha Creek Watershed District.

Six (6) responding peers provide longevity pay with varying policies.

## **Pay Practices**

Advancing between pay ranges

|   | <u>Number of</u><br><u>Responses</u> | <u>Responses</u>  | <u>MCWD</u> |
|---|--------------------------------------|-------------------|-------------|
| Minimum % increase with promotion                                   | 6                                    | Yes (3)<br>No (3) | Yes         |
| Vacancy required prior to promotion                                 | 5                                    | Yes (3)<br>No (2) |             |
| Minimum % increase with reclass<br>to higher grade                  | 5                                    | Yes (2)<br>No (3) | Yes         |
| Allow employees to negotiate<br>salary upon promotion               | 4                                    | Yes (3)<br>No (1) |             |
| Promotional pay increases<br>automatic upon specific<br>achievement | 7                                    | Yes (4)<br>No (3) |             |

#### New hire employee compensation

|  | <u>Number of</u><br><u>Responses</u> | <u>Responses</u>  |  |
|--|--------------------------------------|-------------------|--|
| New hire employees receive pay<br>rate above starting minimum  | 7                                    | Yes (6)<br>No (1) |  |
| New hire employees allowed to negotiate paid time off accruals | 7                                    | Yes (2)<br>No (5) |  |

## Determination of starting rate above minimum

**bakertilly** 

Peers allowing new hires to receive a pay rate above starting minimum consider the following factors: management discretion, years of related experience, difficulty of recruitment, management discretion, and additional education.

## New hire time off accruals

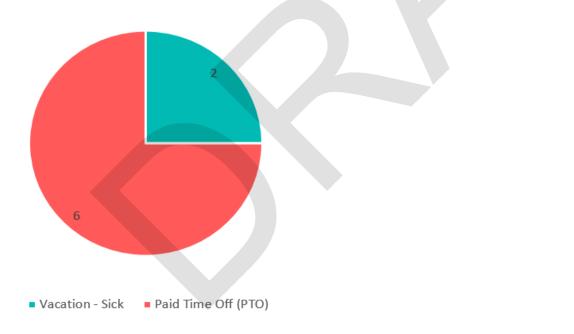

The two (2) peers allowing new hires to negotiate paid time off accruals will either front load a time off balance or base the negotiated accrual rate on market and experience.

## Time off

Number of paid holidays per year (holiday excludes any separate floating holiday)

Vacation / Sick, Paid Time-Off (PTO) - (8 responses)

## Time off

**bakertilly** 

Eight (8) responding peers utilize a paid time off (PTO) model, while two (2) responding peers use a vacation – sick time off model like *Minnehaha Creek Watershed District*.

**Total time off comparison** (vacation and sick combined together for those peers with vacationsick models)

Most of the responding peers utilize a paid time off model. Therefore, in order to provide a comparison of total time off, the two vacation-sick time off peers (as well as **MCWD**) have been combined together.

**Red** signifies *Minnehaha Creek Watershed District* is below market average for total time off accrual based on the specified years of service.

Overall, *Minnehaha Creek Watershed District's* total time off structure is comparable to market averages. *MCWD* falls slightly below market average years 0 – 2 and 18 – 25+.
