·	87	•		

Mr. Michael Hayman appeared before the Board of Managers to review the request for 89 90 board action. He noted that the MCWD's capital improvement plan (CIP) is distributed annually for review and comment prior to budget adoption. He stated that distribution of 91 the 2025 CIP also highlights MCWD's Multi-Year CIP initiative, which seeks to improve 92 93 clarity around near-term project initiatives and the time, staff allocation, and resources needed to execute project workplans; to create a framework to better forecast the capital 94 budget and fundraising needs over multiple years; and to improve the effectiveness of the 95 96 CIP as an external communications tool. The MCWD also distributed the proposed minor plan amendment for the Calvary Church Project in Deephaven along with the 2025 97 98 CIP.

Over the past two weeks, the Gray's Bay Dam has been discharging at 100 cubic feet per second. Monitoring has detected local flash bouncing along the Creek with precipitation events. Lake Minnetonka is at elevation 929.6, having receded with evaporation. Minnehaha Creek is flowing at 268 cubic feet per second at Hiawatha.
