

### MINNEHAHA CREEK WATERSHED DISTRICT QUALITY OF WATER, QUALITY OF LIFE

Title:	2026 Preliminary Budget
Prepared by:	Name: Becky Christopher Phone: 952.641.4512
	bchristopher@minnehahacreek.org

#### Purpose:

At the May 8, 2025 Operations and Programs Committee meeting, the preliminary 2026 budget will be introduced.

Staff will provide an overview of the following areas, which will then be refined for discussion at subsequent meetings.

- Programs and Operations
- Capital Improvement Program
- Capital Finance and Debt Service
- Personnel

#### Background:

The Board of Managers has consistently planned MCWD's budget in alignment with fiscal principles that have maintained organizational health and best positioned the organization to effectively implement its mission.

- Taking a zero based budget approach, to ensure all program budgets align with mission priorities
- Strategically pruning programming based on effectiveness, while implementing operational efficiencies
- Right-sizing and aligning the MCWD staff team, while investing in the growth of people
- Strengthening partnerships with Hennepin and Carver Counties for capital project financing
- Restructuring existing capital project debt
- Consistently securing outside funding through strategic partnerships and pursuit of grants
- Reallocating funds from initiatives delivered under budget to finance MCWD's long-range capital plan

These principles have managed for annual budgetary flux due to the ebb and flow of high-impact capital improvements, while maintaining a steady tax levy. MCWD has increased its levy only 2% in the last seven years, while continuing to implement some of its largest capital improvements to date. This careful planning continues to position MCWD well for the 2026 fiscal year.

#### 2026 Budget-Levy Projection - Overview:

Preliminary projections for the 2026 fiscal year show a balanced budget of \$14,686,126.

This preliminary projection represents a 1.8% or \$265,681 increase in budgeted expenditures, from 2025 to 2026.

The preliminary 2026 budget is supported with a 0% change flat levy \$9,869,513 (Table 1).

This is accomplished through a combination of drawing on previously levied fund balances that were assigned to capital projects, the reallocation of funds from completed projects or programs delivered under budget, an increase in revenue from interest, and \$392,940 in external grant funds for several capital projects.

#### Top Level 2026 Budget Summary:

At the top level (Table 1), the District's budget is organized into:

- Capital Improvement Projects
- Programs
- Capital Finance and Debt Service
- Operations

#### Capital Projects:

MCWD maintains a focus on capital improvements that measurably improve water quality and reduce flooding.

The 2026 Capital Project budget is projected to increase 0.8% to a total estimated cost of \$6,099,359, to support the District's Lake Minnetonka improvement strategy with projects in the Long Lake Creek-Tanager and Six Mile Creek-Halsted Bay subwatersheds, and the Minnehaha Creek corridor downstream at the Minnehaha Greenway and in Minneapolis along the Minnehaha Parkway.

The Capital Project budget represents the implementation of projects that have been planned over multiple years. Within the Research and Monitoring and Project Planning budgets, funds are proposed to be allocated for subwatershed diagnostic and early feasibility work in the Painter Creek-Jennings Bay tributary to Lake Minnetonka.

#### Programs:

MCWD programs directly support capital projects and policy development at the nexus of water and land use.

The 2026 Programs budget is projected to increase 0.3% or \$14,718 to \$5,136,131.

#### Debt Service:

MCWD partners with Carver and Hennepin Counties, to occasionally issue debt on its behalf, to strategically maximize the capacity for high-impact capital project implementation while minimizing levy volatility.

Following the retirement of the note for 325 Blake Road in 2023, MCWD's annual debt service decreased and in 2026 is essentially flat at \$1,100,668. \*Proceeds from pending land sales are not accounted for until closing.

#### **Operations:**

Operations includes MCWD's general operations, information technology, and planned facility improvements.

The 2026 Operations budget is currently projecting an increase of 9.4% or \$202,632 due in part to the proposed addition of an administrative staff position as well as office improvements and consultant support for updating the governance manual and employee handbook.

#### Personnel:

Personnel costs are included within each programmatic area, and include wages, payroll tax, public employee retirement association contributions (PERA), and employee benefits.

The 2026 Personnel budget currently forecasts a 6% increase or \$219,188. Assumptions regarding the 2026 benefit and wage budgets will be updated and adjusted for the June budget discussions.

EXPENSES	2025	2026	2025-2026 Δ	% Change
Operations	\$ 2,147,337	\$ 2,349,968	\$ 202,632	9.4%

TOTAL	\$ 14,420,445	\$ 14,686,126	\$ 265,681	1.8%

#### Attachment 1 - DRAFT 2026 Budget-Revenue Summary

#### 2026 Budget Strategic Alignment – Overview:

#### High Impact Capital Improvements:

In 2026, MCWD will remain focused on cultivating public and private partnerships to deliver capital projects that measurably improve water quality and reduce flooding, while also providing broader community benefit.

#### Lower Watershed

#### Minnehaha Creek:

In the Minnehaha Creek Greenway, 325 Blake Road and the accompanying second phase improvements to Cottageville Park Phase are scheduled to enter construction in 2026. Combined with stream and corridor improvements where South-West Light Rail crosses Minnehaha Creek, these projects will treat over 260 acres of regional stormwater runoff and permanently connect the Minnehaha Creek Greenway from Excelsior Boulevard to Blake Road.

Working in partnership with the City of Minneapolis and the Minneapolis Park and Recreation Board, three projects are projected to move out of feasibility and into design to treat upwards of 500 acres of regional stormwater runoff along the Minnehaha Parkway.

#### **Upper Watershed**

#### Six Mile Creek – Halsted Bay:

In the Six Mile Creek-Halsted Bay subwatershed, the Turbid Lundsten Wetland Restoration and East Auburn Wetland Restoration projects are both scheduled to move into construction. MCWD will also continue feasibility analysis for Halsted Bay watershed load management.

#### Long Lake Creek – Tanager Bay:

In the Long Lake Creek – Tanager Bay subwatershed, MCWD will construct a retrofit to the County Road 6 Stormwater Pond and continue feasibility and design work for regional stormwater management in the downtown Long Lake area, as identified in the Long Lake Creek Roadmap.

#### Policy Development – 2027 Watershed Plan, Climate Action and Flood Reduction:

In 2025, MCWD will finish building its legislatively-funded 2D model of the watershed. In 2026, this work will support scenario planning and the assessment of vulnerabilities across the watershed to flooding under future precipitation regimes. MCWD will begin convening its 29 communities and other key stakeholder in late 2025 and continuing through 2026 to facilitate development of a regional flood management strategy as part of the 2027 Watershed Management Plan.

#### 2026 Budget Breakdown Attachments:

#### **Conclusion:**

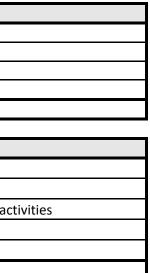

At the May 8, 2025 OPC meeting, staff will provide an updated overview of the total budget and ask the Committee to provide feedback and identify the areas of focus for subsequent discussions in the process. If there are questions in advance of the meeting, please contact James Wisker at <u>Jwisker@minnehahacreek.org</u>.

\*Table run to 2033 to show term of existing debt. Future balances are hypothetical based on assumption of flat levy receipts, for modeling purposes

\*\*MCWD strategically maximizes capacity for project implementation by servicing debt issued by MCWD partners for capital improvements – distributing capital costs over time and future tax paying beneficiaries.
