

PERMIT APPLICATION CHECKLIST

DREDGING GENERAL PERMITS

Materials required for all DREDGING GENERAL PERMITS are outlined below. Projects qualifying for a General Permit only include applications made by public agencies to remove non-native sediments at a stormwater outfall into a public water or public water wetland.

PERMIT APPLICATION FORM (Submitted via [MCWD's Online Permitting Portal](#))

PROJECT SUMMARY (Include the following):

Location of dredging

Estimated volume of dredged material

Description of basis to determine dredging depth, in the form of:

- *Approved plans,*
- *Post-dredge elevation data from a prior dredging,*
- *Core samples establishing the native bed elevation, OR*
- *A narrative describing another method to determine dredging depth*
