Summary:

Minnesota Statutes 103D.345 sets a limit of \$10.00 to defray the costs of processing a permit application. This section also provides that the District may charge a fee of at least \$35.00 to cover the actual costs related to field inspections. Applicable costs include inspections of the area affected by the proposed activity, analysis of the proposed activity, services of a consultant, and any required subsequent monitoring of the proposed activity. Cost of monitoring an activity authorized by a permit may also be charged and collected as necessary after the issuance of a permit.

In 2024 staff recommended and the Board approved changes to the fee schedule for hourly fees for District professional and administrative staff as well as wetland buffer signs. It was also approved by the Board that staff recalculate and submit updated rates every three years for Board review and approval. The next recalculation will be completed in 2027.

For this reason, staff recommends the fee schedule approved in 2025 be carried forward into 2026 with no changes. The proposed fee schedule is:
