Re: Public Hearing: Greenway-Cedar Trail Connection and Streambank Restoration

Dear Community Member:

The city council will hold a public hearing for the Greenway-Cedar Trail Connection and Streambank Restoration project on:

**Monday, Feb. 2 at 6:15 p.m.
City Hall Council Chambers
5005 Minnetonka Blvd, St. Louis Park, MN 55416**

The City of St. Louis Park and Minnehaha Creek Watershed District are partnering to add a paved trail connection from the Minnehaha Creek Preserve to the Cedar Lake LRT Regional Trail. This new connection will improve access to the Preserve, regional trail and upcoming light rail stations. The project will also include streambank restoration along this section of the creek where feasible.

Minnehaha Creek Watershed District has completed the plans for this project and will be presenting the details to the city council. More information on the project can be found on the watershed district's project website at <https://minnehahacreek.org/project/greenway-to-cedar-trail-connection-streambank-restoration/>.

Following the presentation by staff, council will open the public hearing and you will have an opportunity to speak to the city council regarding this project. No action will be taken at the Feb. 2 meeting. The city council will vote on whether to approve the project as presented at the Feb. 17 council meeting.

We encourage you to attend the public hearing. If you are unable to attend but would still like to provide input, please send your comments to me by Jan. 26 in a letter or email, and they will be shared with the city council.

If you have any questions or additional comments, I can be reached at 952.924.2691 or jsullivan@stlouisparkmn.gov. We look forward to working with you and your neighbors.

Sincerely, 

Jack Sullivan, P.E.

Assistant city engineer
