**Date:** November 10, 2014  
**Re:** Watershed Association Initiative 2015 Contract

---

For the past eight years, MCWD and the Freshwater Society have been working together on the Watershed Association Initiative. The mission of the WAI has been to engage and empower citizens in the Minnehaha Creek Watershed to assist the MCWD in meeting its established water quality and lake/stream management goals.

At the November 13, 2014 Board Workshop, staff and Alex Gehrig from the Freshwater Society will present the proposed 2015 WAI contract and scope of services. The presentation will include results of a program assessment conducted in 2014 and recommended program updates resulting from that assessment.
