

MEMORANDUM

To: MCWD Board of Managers

From: Darren Lochner, Education Program Manager

Date: December 5, 2016

Re: MCWD Citizen Advisory Committee appointments

Purpose:

Each year the MCWD Board of Managers appoints the Citizen Advisory Committee members for the upcoming calendar year. The Board is asked to review the CAC application materials to make appointments for 2017.

Background:

By Statute, MCWD is obligated annually to appoint members to its Citizen Advisory Committee. The CAC serves an important role in advising the MCWD Board of Managers on all issues pertinent to the functions and purpose of the watershed district. The term of this appointment will run through the calendar year of 2017. Thirteen of the seventeen individuals who currently serve on the CAC have indicated an interest in returning in that role. In addition, eighteen new individuals have submitted applications to serve on the CAC for a total of 31 total applications.

Included with this memorandum is a summary spreadsheet of all eligible applicants and completed application forms. MCWD staff solicited membership through the MCWD website, newsletters, news release and reaching out to district partners.

According to past practice, Managers determine the size of the CAC for the upcoming year. Managers are also recommended to review the attached applications and select individuals for whom they support for appointment to the CAC.

Next Steps:

Once the committee appointments are finalized MCWD staff will communicate with the appointed CAC members and provide an orientation to all current and new members.

If there are questions in advance of the meeting, please contact:

Darren Lochner, Education Program Manager, dlochner@minnehahacreek.org; 952-641-4524

	ways to engage at the local level so I can be an informed and contributing citizen to my community. In addition to joining the board of Friends of Lake Nokomis, I recently joined the Big Brothers Big Sisters program in the Twin Cities and am looking forward to sharing my love of the outdoors and our natural resources with my "little sister". Joining the CAC would provide yet another opportunity to engage at the local level and allow me to expand my knowledge on issues facing Lake Nokomis to Issues facing the entire watershed for the Creek. I would also like to learn more about how watershed districts operate in general as I believe they are going to be even more important to the management of our water resources in the future. My husband and I live a half block from the Creek and our daily highlight is walking the trails with our two dogs and seeing neighborhood friends along the ways. So, anything I could do to help protect the creek and its watershed is a worthwhile cause in my book.	watershed, but maybe don't connect with the creek as much because of location, understand how their actions impact the creek and lakes.

- Current member of the CAC Served on the committee that rewrote the Watershed District Rules Former district chairman for Boy Scouts and Cub Scouts. (Silver Beaver & District Award of Merit) - Past board president of a non-profit organization pr Name Robyn Barziza Chargo	As a resident of this watershed for most of my life, I have a strong concern for the quality and conservation of our water resources. Through my past involvement in various organizations and private life, I have always tried to be a worthy steward of the environment, particularly the lakes and streams we are fortunate to have in our area. I feel that education and improving public understanding of water issues are critical factors. I have seen well-intentioned individuals, and even city groups, unknowingly do things that are deleterious to water quality and conservation. This watershed district also has done an excellent job of identifying and developing projects that have a lasting and growing effect on water resources. I appreciate the opportunity to play a small part in that. ⁽²⁾ Address 1609 Bluebird Lane, Mound	Naturally, water quality and conservation, plus environmental balance. Education, public awareness and involvement. Visibility for the District's success stories to promote public interest, involvement and support.Continue to build partnerships with public and private groups to develop well-designed projects that address specific problems and opportunities. It has been a wonderful learning experience for me and for the Woodland CIty Council. I enjoy talking about water issues & the environment to the city council, friends and neighbors because of what I am learning. My involvement has been particularly important for the Woodland CIty Council because we want to maintain the good working relationship we have enjoyed with the MCWD. And Mayor Doak asked me to consider asking for reappointent again, which I am	PMR Enterprises LLC Issues of Interest Support the district and the Board by providing recommendation's and feedback on programs, Cost share, budget, and committee participation. Provide feedback from our communities with issues and help with volunteer activities and supporting the mission of the district. Occupation and Employer Retired educator, retiring Woodland City Councilor Issues of Interest It is really important to me personally as well as to our city that we are well informed about best practices to preserve our community's major asset in terms of environmental protection as well as recreation and the fact is that it is a valuable amenity for our residents. I have a science	to serve my community as an ambassador for clean water. Address 1242 Hunter Drive Wayzata Why I Want to Serve I would like to continue working to improve water quality throughout the watershed district. Storm water runoff and AIS are the two major issues facing our water bodies today. I bring hands on experience on implementing and advocating for improved water quality for lakes and wetland restoration Address 2835 West Road, Woodland Why I Want to Serve I have been on the CAC for 5 or 6 years and would like to be reappointed for 2017. It has been a wonderful learning experience for me and for the Woodland City Council. I enjoy talking about water issues & the environment to the city council, friends and neighbors because of what I am learning. My involvement has been particularly important for the Woodland City Council because we want to maintain the good working relationship we have enjoyed with the MCWD.
