

MEMORANDUM

To: MCWD Board of Managers
From: Renae Clark, Planner/Project Manager
Date: April 11, 2016
Re: Wayzata Lake Effect Signature Project Presentation

Purpose:

On April 14, 2016 Mary deLaittre, Project Consultant for the City of Wayzata, will present the final design concepts for the Lake Effect Signature Park which focuses on the redevelopment of Wayzata Lake front and Lake Street.

Background:

The Wayzata Lake Effect is a multi-year initiative to create a long term vision for the City's Lakefront that began in 2012. The Lake Effect Signature Project is an initial phase of the long term vision, focusing on expanding the linear lakefront Signature Park that unites disconnected sites along the shoreline. The schematic design process for the Lake Effect Signature Project utilized a Steering Committee comprised of institutional leaders and elected officials including President White and a Technical Committee comprised of appointed members from jurisdictional bodies to provide technical expertise and included Renae Clark. Mary deLaittre will provide a project overview covering project goals, concepts, phases, schedule, programming and funding.

Next Steps:

The final public form as part of the Schematic Design process is Tuesday April 19, 7 PM as part of the Wayzata City Council meeting.

Specific environmental review and permitting processes will be developed as part of project design.
